

Frost protection agent - Glysofor N

Environmentally friendly concentrate based on monoethylene glycol.

Can be used as a frost protection agent, heat carrier medium, coolant, cooling brine and an anticorrosive agent.

Comprehensively corrosion inhibited for the long-lasting operation of the heating and cooling system.

Free of nitrites, phosphates, amines, borates and silicates.

Biodegradable.

Water pollution class: WGK 1

Frost protection value - Glysofor N:

Frost protection in ° Celsius	
<i>Glysofor N</i>	<i>Antifreeze protection</i>
20%	-9
30%	-16
40%	-25
50%	-38
58%	-51
